Education

Bennett University

Bachelor of Technology in Computer Science - GPA: 9.16

July 2019 – July 2023

Greater Noida, Uttar Pradesh

The Air Force School - Subroto Park

PCM + CS - 94%

April 2019

New Delhi, New Delhi

Skills

Python, Rust, C++, Flutter, React, NextJS, Postgres, SQL, AWS, Azure, Prometheus, Grafana, ElasticSearch, Kibana, Kubernetes, Docker, Linux, Jira, New Relic, Terraform, Git, Jenkins

Experience

Software Engineer

Fourkites

July 2024 – Current

Remote

- Automated runbooks using LangChain to perform Level-1 RCA for Pager alerts, providing impacted customers and recommended actions; recognized as the winner of an internal AI hackathon.
- Developed and automated trend-based alerts using Prometheus metrics for business-critical services, creating and automating runbooks to enhance incident response; proactively detected and mitigated 36 issues before customer escalation during a 4-month pilot.

Site Reliability Engineer

Fourkites

June 2023 – July 2024

Remote

- Spearheaded a pilot project aimed at exposing custom metrics through Prometheus from a critical service, enhancing insights for customers. Developed automated report generation based on alerts.
- Contributed to the setup of alert mechanisms for infrastructure and services during the onboarding process for new services/features.
- Established an automated Status Page system and streamlined Outage Mail Processes for prompt communication during system outages.
- Implemented automation for frequently requested tasks, reducing manual workload and enhancing operational efficiency for the SRE team.
- Conducted candidate interviews and led daily stand-up meetings as part of team leadership responsibilities.
- Actively managed inter-team communication, issue detection, and mitigation responsibilities as a Level 1 On-Call team member.

Site Reliability Engineer Intern

Fourkites

Aug 2022 – June 2023

Remote

- Led the migration and training of 50+ product support and development team members on a new enterprise-wide logging tool, ensuring seamless adoption and optimal utilization.
- Optimized log storage costs by refining logging processes, reducing log ingestion volume by 50% and achieving significant cost savings.
- Executed a PoC to transition a complex metrics pipeline from Kinesis Firehose, Elasticsearch, and Kibana to Prometheus and Grafana, enhancing efficiency and reliability.

Software Engineer Intern

Glue Labs

March 2022 – June 2022

New Delhi, Delhi

- Worked as part of the Flutter Development team.
- Implemented functionality and designs provided through Figma.

Projects

Full Stack Blog Site | *NextJS, Postgres, Prisma*

May 2024

- Developed a Full stack CRUD blogs site using NextJS.
- Implements social media sign in and authentication using Next Auth.
- Utilises Postgres in a Docker container as the backend, utilises PrismaORM for connection.

Web3.connect | *Flutter, Dart*

April 2022

- Led the development and publication of a groundbreaking Flutter package, enhancing the connectivity of Flutter applications with various crypto wallets through the WalletConnect protocol.
- This project involved meticulous design and implementation, enabling seamless integration with leading wallets like MetaMask and Trust Wallet. The package's success underscores my ability to innovate and deliver solutions that drive efficiency and security in the crypto space.

Youtube Gesture Control | *Python, OpenCV, Mediapipe*

February 2022

- Designed and developed an innovative application that enables users to control fundamental YouTube functions using intuitive gestures.
- Implemented a range of features, including Pause/Play, toggling fullscreen mode, and navigating backward/forward by 5 seconds, enhancing user convenience and interaction.
- Ensured a safe and reliable gesture detection system by limiting gestures to a designated safe space, optimizing user experience and preventing accidental inputs.

Accolades

- Winner of Tezos India HACK7DAY Hackathon
- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Head of Student Council in High School
